certifications

- Microsoft Certified Azure Developer Associate (AZ204)
- Microsoft Certified Azure Fundamentals (AZ900)
- Certified Angular Developer (Level 1) by Google Developer Experts

professional summary

- Experienced Full-Stack Developer with expertise in designing, developing, and deploying complex applications, skilled in rapid adaptation to new technologies
- Strong command of SDLC and Agile methodologies, with proven success in troubleshooting and resolving technical challenges
- Proficient in stakeholder collaboration, aligning projects to business needs, and developing proof of concepts (POCs) to demonstrate technical feasibility
- Focused on optimizing application performance, scalability, and security in cloud environments, with a commitment to continuous learning and professional growth
- Highly motivated to learn and adopt new technologies, consistently seeking opportunities for exploration and growth

professional experience

Feb 2023 – Current

Software Engineer / Imriel Tech Sol Pvt. Ltd. / Pune, India

Projects

- **E-file:** This essential web application collects tax data from various systems, consolidates it, and synchronizes it with third-party tools for generating US tax forms.
- **State Income Tax (SIT):** This system is designed for US tax calculations, enabling efficient tax management and generating detailed reports.
- **Telerik Reporting:** This web application streamlines the creation, management, validation, and formatting of custom reports, greatly accelerating the entire reporting process.
- **MLP Automation:** This tool streamlines data validation, SQL query creation, and documentation, reducing tasks from weeks to minutes.
- **Client:** PwC, CBRE

Role & Responsibilities

- Developed full-stack applications using Angular, .NET Core Web API, MS SQL, .NET MVC, Microsoft Cloud Solutions, Windows Forms, ADO.NET, Entity Framework, Azure DevOps etc. handling both front-end and back-end requirements
- Delivered efficient, high-quality solutions across various projects, receiving client recognition for timely and optimal results
- Leveraged cloud services for deployment, scaling, and monitoring, and automated workflows to enhance productivity
- Committed to continuous learning of new technologies, applying best practices to ensure code quality and process efficiency

Dec 2020 – Feb 2023

Associate Software Engineer / SLK Software Pvt. Ltd. / Bangalore, India

Projects

- **Request To Quote (RTQ):** RTQ is a tool to facilitate special approvals for certain quotes and orders.
- **Deal Management System (DMS):** DMS application allows users to create agreements and deals for orderable products.
- **Client:** Emerson Electric Co. (MFSC)

Role & Responsibilities

- Developed object-oriented software through analysis, coding, testing, and documentation, focusing on .NET MVC, MS SQL, .NET Core Web API, Angular, ADO.NET, Entity Framework, Azure DevOps etc. for web applications
- Maintained regular client communication to ensure project alignment, implemented new features, and collaborated to resolve backend and UI issues
- Applied Agile practices, managed version control, deployment, and conducted code reviews to maintain standards
- Documented system architecture, created test plans, and improved existing applications to enhance functionality and stability
